

# Return to work – everyone's responsibility!

Recovery, and return to work outcomes are significantly better when the injured employee, line manager and Gallagher Bassett all maintain contact.

If you have an accepted workers compensation claim, and have been certified with an incapacity or restrictions for work, you will be assigned a Return to Work Specialist at Gallagher Bassett.

The Return to Work Specialist's role is to support you in your recovery, working in collaboration with you, your treating practitioner and your line manager to put together a return to work plan.

You may also be appointed a vocational rehabilitation provider, to further support you in your return to work journey.
